

BSDT's AYURVED MAHAVIDYALAYA, WAGHOLI, PUNE

DEPARTMENT OF SHARIR KRIYA

INTRODUCTION

In First year B.A.M.S. course, Sharir Kriya subject provides basic fundamental knowledge of Ayurvedic Principles and physiological knowledge of all the systems of human body. It also imparts a practical knowledge through laboratory practicals and human experiments. Sharir Kriya department aims to make the students understand the normal physiology so that later they can understand the pathology and treatment of diseases. To achieve these goals, Sharir Kriya department have well equipped spacious laboratory with all essential instruments.

Teaching aids includes: - departmental library (for UG students), specimens, charts, models etc.

SUBJECT OUTCOME (UNDER-GRADUATE)

- Student should acquire detailed knowledge of fundamental principles of Ayurved and modern physiology from classical texts and modern physiology textbooks.
- Also, they should learn evidence base knowledge by performing laboratory practical and human experiments.

SPECIALITY OF DEPARTMENT

- Sharir Kriya department creates awareness among the patients regarding Ayurvedic concept of Prakruti so that they can improve their lifestyle.
- Prakruti assessment of the patients is also done for their benefit.
- Department has redesigned the snake and ladder game. The purpose is to make student understand the concept of Sharir Kriya by fun and learn method. The blocks in the game indicates Dhatu Sarata Lakshan, Swasthya Vyakhya etc
