Swachha Bharat Abhiyaan

A clean and green environment is a basic ideology in sustainable development. The importance of cleanliness is known to all. People try to keep their homes clean, while they somehow just forget that they are responsible for the cleanliness of the environment as well. Just getting rid of any waste from their house won't help. It could be due to lack of knowledge or due to share laziness or due to irresponsibility. Sometime, all it takes is a reminder.

As student is an important part of the society in Nation building, inculcating good/moral values in them becomes the Educational responsibility. Academic discipline has a great role in virtue building Thus, in B.S.D.T's Ayurved Mahavidyalaya, **Swachhata Abhiyaan (cleanliness drive)** is conducted from time to time. The drive is organized in different areas of the campus like canteen surrounding, Hospital surrounding, college surrounding etc. **“Plastic Free Campus Drive”** is also carried out. In addition to organizing the swachhata drive in campus, such drives are organized in nearby schools by the NSS Unit of our Institutes to create awareness about cleanliness in school children.
